

Erratum

Vasopressin *versus* Norepinephrine in Patients with Vasoplegic Shock after Cardiac Surgery: The VANCS Randomized Controlled Trial: Erratum

In the article beginning on page 85 of the January 2017 issue, the nomenclature, “ $2.2 \text{ l} \cdot \text{min}^{-2} \cdot \text{m}^{-2}$ ” is incorrect due to a publisher error. The correct nomenclature is “ $2.2 \text{ l} \cdot \text{min}^{-1} \cdot \text{m}^{-2}$.” This error has been corrected in the online version of the article.

Vasopressin, Norepinephrine, and Vasodilatory Shock after Cardiac Surgery: Another “VASST” Difference? Erratum

In the article beginning on page 9 of the January 2017 issue, the nomenclature, “ $2.2 \text{ l} \cdot \text{min} \cdot \text{m}^{-2}$ ” is incorrect due to a publisher error. The correct nomenclature is “ $2.2 \text{ l} \cdot \text{min}^{-1} \cdot \text{m}^{-2}$.” This error has been corrected in the online version of the article.

Erratum

Current Status of Neuromuscular Reversal and Monitoring: Challenges and Opportunities: Erratum

In the article beginning on page 173 of the January 2017 issue, the sentence, “It is less effective as a reversal agent, as the bonds it forms with NMBA molecules are ionic and much weaker than the covalent bonds of neostigmine and NMBA,” is incorrect. The correct sentence is, “It is less effective as a reversal agent, as the bonds it forms with acetylcholinesterases are ionic and much weaker than the covalent bonds of neostigmine and acetylcholinesterases.” This error has been corrected in the online version of the article.
