## Erratum

Impact of Methylprednisolone on Postoperative Quality of Recovery and Delirium in the Steroids in Cardiac Surgery Trial: A Randomized, Double-blind, Placebo-controlled Substudy: Erratum

In the article beginning on page 223 in the February 2017 issue, there is an error in the sentence, "The incidence of delirium for the control group was 10%, which was similar to that in patients given methylprednisolone (8%; OR, 0.31; 95% CI, 0.73 to 2.48; P = 0.357; table 3)." The correct sentence is, "The incidence of delirium for the control group was 10%, which was similar to that in patients given methylprednisolone (8%; OR, 0.74; 95% CI, 0.40 to 1.37; P = 0.357; table 3)."

The authors regret this error. The online version and PDF of the article have been corrected.
