

INDEX OF SUBJECTS • VOLUME 19

Subject entries for all material in the JOURNAL (except *Briefs from the Literature*) appear in this index. The page number in bold face indicates an original article, and the name of the author, in brackets, follows the subject entry. Entries from the JOURNAL departments are followed by the department in which the subject matter appears, i.e., Editorial, Current Comment and Abstract.

This is a subject index and one should, therefore, look for the subject word except for Book Notices and Book Reviews which are listed only under these headings. Matter pertaining to societies is indexed under the individual society name. For index to issues and authors see page 827.

- Anesthesia:** see also under names of specific agents and procedures
agents, effect on evoked central nervous system responses [Davis & others], 441
cyclopropane, epinephrine and norepinephrine in initiation of ventricular arrhythmias by carbon dioxide inhalation [Price & others], 619
effect of Fluothane [Burnap & others], 307
epidural, blunt-tip needle for [current comment], 556
ether, concentrations, flammability and blood levels [Ebersole & Artusio], 607
Fluothane, properties [Krantz & others], 38
Fluothane, respiratory studies during [Devine & others], 11
for bilateral adrenalectomy [Bellville & others], 217
in dogs, compatibility of synthetic oxytocin with [Feldman & others], 787
in radiation sickness [translation from Russian], 792
monitoring, instrumentation and [editorial], 676
nitrous oxide induction, arterial oxygen saturation and respiratory minute volume during [abstract], 94
obstetrical, lumbar sympathetic nerve block [abstract], 98
pediatric, hypno-induction techniques in [current comment], 279
records [current comment], 410
records, Illinois E-Z Sort card [Sadove & Levin], 178
spinal, case report [current comment], 682
spinal, continuous, in treatment of acute pulmonary edema [current comment], 561
spinal, heat sterilization of ampuls [Gerlich & others], 394
spinal, with hyperbaric tetracaine, area of differential block in [Greene], 45
teaching [Mushin], 131
topical tracheal with lidocaine [current comment], 803
traditional signs and stages, electroencephalographic and clinical study [Galla & others], 328
vaporizers: see under Apparatus
volatile, action on muscle preparations [Sabawala & Dillon], 587
volatile agents and muscle relaxants, effect on evoked central nervous system responses in cat [abstract], 98
volatile drugs, determining vapor concentrations of [Fabian & others], 51
- Anesthetics:** see also names of specific drugs and agents
comparison of, on incidence of ventricular fibrillation in experimental hypothermic ventriculotomy [Anlyan & others], 213
- Antagonism**
of barbiturate and meperidine by Ritalin [abstract], 101
- Apparatus:** see also under names of specific equipment

- adaptor for connecting tracheostomy tubes [current comment], 803
- anesthetic vaporizers, design and function [Morris & Feldman], 642
- audiovisual monitoring of unborn infant [abstract], 104
- carbon dioxide analyzer (new and inexpensive) [abstract], 97
- cardiac pacemaker [current comment], 563
- chest guard [current comment], 289
- circle absorbers design [abstract], 99
- combination resuscitator and aspirator [current comment], 406
- Copper Kettle [current comment], 559
- Copper Kettle, vaporization of halothane and ether [Feldman & Morris], 650
- device for mounting cuffs [current comment], 559
- needle adaptors for ECG monitoring machines [current comment], 806
- ear oximeter as circulatory monitor [Schotz & others], 386
- gas analyzer for rapid estimation of cyclopropane [Linde & Price], 757
- inflatable plastic tub for hypothermia [current comment], 287
- inhalers for trichloroethylene, chloroform and Fluothane [abstract], 109; [Ngai & others], 488
- intravenous sets [current comment], 801
- low flow pump oxygenator during cardiopulmonary bypass, biochemical changes induced by [abstract], 107
- modification of tracheostomy tube [current comment], 406
- modified Ayre's T-piece, positive-negative pressure ventilation with [Eger & Hamilton], 611
- monitoring, instrumentation and anesthesia [editorial], 676
- pillow for anesthesia [current comment], 681
- three-way stopcock [current comment], 680
- tracheal sucker [current comment], 290
- vaporizers, Fluotec performance [current comment], 681
- ventilating bronchoscope [current comment], 406
- volume displacement ventilator, ventilation and circulation during surgery [abstract], 100
- Arfonad: see Trimethaphan Camphorsulfonate Arm
- upper, regional block of great nerves of [current comment], 281
- Arrhythmias: see also Ventricular Fibrillation
- cardiac, produced by mechanical stimulation during hypothermia [abstract], 113
- cyclopropane-epinephrine (in dogs), suppression by phenothiazine derivatives [Winbury & others], 743
- ventricular, epinephrine and norepinephrine in initiation of, during cyclopropane anesthesia [Price & others], 619
- Aspiration
- combination resuscitator and aspirator [current comment], 408
- Axillary Brachial Plexus
- block [current comment], 683
- Barbiturates: see Thiopental Sodium, Pentobarbital Sodium
- antagonist—Ritalin [abstract], 101
- intravenous, potency [abstract], 110
- Block: see under Anesthesia; Muscles; Nerves
- Blood
- arterial, ether levels in ether analgesia, concentrations and flammability [Ebersole & Artusio], 607
- arterial oxygen saturation and respiratory minute volume, during induction with nitrous oxide [abstract], 94
- biochemical changes from low flow pump oxygenator during cardio-pulmonary bypass [abstract], 107
- circulation during surgery using volume displacement ventilator [abstract], 100
- circulation, ear oximeter as monitor [Schotz & others], 386
- circulatory effects of Fluothane [Burnap & others], 307
- clotting and cardiovascular disturbances during massive replacement [Howland], 140
- estimation of ethylvinyl ether [Linde], 254
- fetal cord, measurement of concentration of promethazine in [abstract], 93
- hemodynamic effects of chlorpromazine, including cardiac work and coronary blood flow [Maxwell & others], 64
- replacement (massive), cardiovascular and clotting disturbances during [Howland], 140
- venous, measurement of concentration of promethazine in [abstract], 93
- volumes in men and women over sixty years of age as determined by modified Cr⁴¹ method [Smith], 752
- Blood Pressure
- low, Arfonad induced, respiratory studies with [abstract], 106
- low, and intravenous administration of α -tubocurarine [current comment], 404
