

INDEX OF AUTHORS AND SUBJECTS • VOLUME 48

Index of Issues: January, pp. 1–86; February, pp. 87–164; March, pp. 165–234; April, pp. 235–308; May, pp. 309–392; June, pp. 393–472.

Author entries for original articles include the titles of the articles and co-authors under the first-author; reference is made from the joint authors.

Subject entries for all material in the JOURNAL appear in this index. The name of the author of an original article, in brackets, follows the subject entry. Entries from the JOURNAL departments are identified by the departments in which the subject matter appears, e.g., Clinical Reports.

AASHEIM, G. M., see FINK, B. R., jt. auth.

Abdomen, intra-abdominal pressure, hemodynamics of increased, hypovolemia and halothane anesthesia interaction with [Diamant & others], 23

ABOULEISH, E., KLIONSRY, B. L., and TAYLOR, F. H., Lidocaine effects on leukocytes and erythrocytes (correspondence), 295

Acetylcholine

biosynthesis, brain, during anesthesia with halothane, enflurane, and ketamine [Ngai & others], 4

brain concentrations and turnover during anesthesia with halothane, enflurane, and ketamine [Ngai & others], 4

metabolism, brain, anesthetics and (editorial views) [Hanin], 1

Acid–base equilibrium

acidosis, fetal, lidocaine placental transfer response to [Biehl & others], 409

pH of gastric fluid, responses to atropine, glycopyrrolate, and Riopan (clinical report) [Stoelting], 367

Acid pneumonitis, see under Complications, pneumonitis

Acidosis, see under Acid–base equilibrium

ACKERLY, J. A., see MILLER, E. D., Jr., jt. auth.

Air embolism, see under Embolism

Airway

see also under Equipment

closure, anesthesia and (correspondence) [Wahba], 293

obstruction, endotracheal intubation complicated by uvular edema (clinical report) [Ravindran & Priddy], 374

ALBRECHT, R. F., see MILETICH, D. J., jt. auth.

ALBRECHT, W. H., see HULL, M. T., jt. auth.

Alling, C. C., III, and Mahan, P. E. (eds.), *Facial Pain* (book review), 234

Alpha-bungarotoxin, see under Neuromuscular relaxants

Alphadione, see under Anesthetics, intravenous, steroid

Ambient temperature, see under Temperature

AMENT, R., Anesthesia and surgical care—manpower needs and utilization (editorial views), 88

American Board of Anesthesiology, see under Organizations

American Society of Anesthesiologists, see under Organizations

Amines, vasoactive, see under Sympathetic nervous system; Sympathetic nervous system, catecholamines

Amino acids, see under Metabolism

Aminoglycosides, see under Antibiotics

Analgesia, see also under Analgesics, narcotic; Analgesics, non-narcotic; Anesthetic techniques, spinal

Analgesics

narcotic, fentanyl, choledochoduodenal sphincter spasm associated with, naloxone reversal (clinical report) [McCammon & others], 437

premedication, sedation vs. relief of anxiety (correspondence) [Conner], 300

Anatomy

jugular vein, internal

supraclavicular catheterization, precaution (correspondence) [Rao & others], 448

supraclavicular catheterization, precaution (correspondence) [Schwartz], 448

radial artery, cannulation, wrist circumference predicts risk of occlusion after (clinical report) [Bedford], 377

Anesthesia

see also Acupuncture; Anesthesiology; Anesthetic techniques; Anesthetics, gases; Anesthetics, intravenous; Anesthetics, local; Anesthetics, rectal; Anesthetics, volatile; Complications; Equipment; History; Induction; Potency; Physics; Records; Recovery; Surgery; Theories

dental

general anesthesia by dentists, acceptability considered (correspondence) [Klein & others], 385

general anesthesia by dentists, acceptability considered (correspondence) [McLaughlin], 384

machines, see under Equipment

neurosurgical

embolism, air, venous, monitoring, methods compared in supine dogs, [English & others], 425

intracardiac catheters unnecessary in (correspondence) [Jackson], 154

symposium, 8th International Cerebral Blood Flow Symposium (report of scientific meeting) [Shapiro], 231

obstetric

Apgar score, neurologic activity of infants following anesthesia for cesarean section [Hollmen & others], 350

bupivacaine-induced seizure (correspondence) [DeVore & Asrani], 386

cesarean section, neurologic activity of infants following [Hollmen & others], 350

fetal neuropharmacology (editorial views) [Holtzman], 235

fetal rat brain metabolism during maternal anesthesia [Vannucci & Wolf], 238

fetus, acidosis effects on lidocaine placental transfer [Biehl & others], 409

lidocaine, monoethylglycinexylidide, and isolated human uterine muscle [Munson & Embro], 183

lidocaine, placental transfer, effects of fetal acidosis [Biehl & others], 409

paternal fractured skull as complication (correspondence) [DeVore & Asrani], 386

regional, fetal and neonatal effects of (review article) [Ralston & Shnider], 34

pediatric

Bain anesthetic circuit in controlled ventilation of children, new concept in [Rayburn & Graves], 250

bronchial suctioning techniques evaluated (clinical report) [Salem & others], 379

endotracheal tube size markings (correspondence) [Downes], 157

endotracheal tube size markings (correspondence) [Morley], 157

humidification, heated (correspondence) [Wallace & others], 80

hyperthermia, benign iatrogenic (clinical report) [Fraser], 375

reversal, pressure, of various anesthetics in mice [Miller & Wilson], 104

Anesthesiologists

competence, residents, how faculty members define [Orkin & Greenhow], 267

education, professional activity monitoring, distribution (special article) [Eckenhoff], 272

- medical knowledge, new
 acquisition and use (editorial views) [Warner], 396
 acquisition and use (special article) [Fineberg & others], 430
- surgical care
 manpower needs and utilization (editorial views) [Ament], 88
 manpower needs and utilization (special article) [Moore], 125
- Anesthesiology
 overview (special article) [Eckenhoff], 272
 surgical care and
 manpower needs and utilization in (editorial views) [Ament], 88
 manpower needs and utilization (special article) [Moore], 125
- Anesthetic circuit, see under Equipment, circuits
- Anesthetic techniques
 hypotension, induced
 (editorial views) [Eckenhoff], 87
 nitroprusside, metabolism in halothane-anesthetized and awake dogs [Behnia & others], 260
 nitroprusside, total hip arthroplasty, blood loss and organ function after [Thompson & others], 91
- peridural
 balanced, for cesarean section, neurologic activity of infants following [Hollmen & others], 350
 epidural, catheter, double-orifice, hazard of subarachnoid anesthesia (clinical report) [Ward & others], 362
 lumbar, emphysema, subcutaneous, following (clinical report) [Laman & McLeskey], 219
 total spinal anesthesia during (correspondence) [Bullard & Woerth], 450
 total spinal anesthesia during (correspondence) [DeVore], 449
- regional
 brachial plexus block, heparin therapy and, hemopneumothorax complicating (clinical report) [Mani & others], 213
 infraorbital nerve block, lidocaine-induced, epinephrine effects on duration [Fink & others], 263
 obstetrical, fetal and neonatal effects of (review article) [Ralston & Shnider], 34
 stellate ganglion block, ECG changes in evaluation of lateralization of sympathetic control of sinoatrial node (clinical report) [Rogers & others], 139
- spinal
 epinephrine effects on duration of action of lidocaine [Fink & others], 263
 lumbar puncture, headache following, treatment by epidural saline placement compared with epidural blood placement (clinical report) [Bart & Wheeler], 221
 lumbar puncture, meningitis after spinal anesthesia (clinical report) [Berman & Eisele], 376
 spinal cord response during (clinical report) [Forbes & Roizen], 440
 total, during epidural anesthesia (correspondence) [Bullard & Woerth], 450
 total, during epidural anesthesia (correspondence) [DeVore], 449
- Anesthetics
 flammable, survey of use (correspondence) [Duncalf], 298
- gases
 cyclopropane, malignant hyperthermia, *in-vitro* model, caffeine-induced contracture response to [Reed & Strobel], 254
 cyclopropane, survey of flammable anesthetic use (correspondence) [Duncalf], 298
 cylinders, see under Equipment, cylinders
 ethylene, survey of flammable anesthetic use (correspondence) [Duncalf], 298
 nitrous oxide, brain responses to in dog [Sakabe & others], 195
 nitrous oxide, cardiovascular effects during enflurane anesthesia [Smith & others], 345
 nitrous oxide, diffusion into tracheal tube cuffs, physical characteristics [Bernhard & others], 413
 nitrous oxide, fetal neuropharmacology (editorial views) [Holtzman], 235
 nitrous oxide, fetotoxicity in rats after chronic exposure [Pope & others], 11
 nitrous oxide, malignant hyperthermia, *in-vitro* model, caffeine-induced contracture response to [Reed & Strobel], 254
 nitrous oxide, metabolism, oxidative, in fetal rat brain during maternal anesthesia [Vannucci & Wolf], 238
 nitrous oxide, myelography and, cerebrospinal fluid pressure and subarachnoid gas composition during (clinical report) [Prasertwanitch & Gabel], 214
 nitrous oxide, potency, anesthetic indices relating to respiratory arrest and cardiac failure [Wolfson & others], 187
 trace concentrations, fetotoxicity in rats following chronic exposure [Pope & others], 11
- intravenous
 ketamine, acetylcholine concentrations and turnover in rat brain structures during [Ngai & others], 4
 ketamine, angina and (correspondence) [Balagot], 156
 ketamine, angina and (correspondence) [Cravlee], 155
 ketamine, angina and (correspondence) [Guerra], 155
 ketamine, pressure reversal in mice [Miller & Wilson], 104
 ketamine, renin-angiotensin system regulatory function during [Miller & others], 399
 ketamine, renin-dependent state in rat, blood pressure support during [Miller & others], 404
 ketamine, vasoactive amine interactions with at normothermia and hypothermia in isolated rabbit heart [Hill & others], 315
 pentobarbital, arrhythmia, epinephrine-induced, during, responses to fasting and lipid infusion [Miletich & others], 245
 pentobarbital, fetal neuropharmacology (editorial views) [Holtzman], 235
 pentobarbital, metabolism, oxidative, in fetal rat brain during maternal anesthesia [Vannucci & Wolf], 238
 phenobarbital, metabolism of carbohydrate and amino acids in rat brain with [Chapman & others], 175
 steroid, alaphadione, pressure reversal in mice [Miller & Wilson], 104
 thiopental, history, use in military anesthesia (correspondence) [Cole], 79
- local
 bupivacaine, dopamine release from rat striatal slices altered by [Westfall & others], 118
 bupivacaine, seizure induced by in obstetrics (correspondence) [DeVore & Asrani], 386
 chloroprocaine, echothiophate iodide effect on action (clinical report) [Brodsky & Campos], 288; 398
 cocaine, dopamine release from rat striatal slices altered by [Westfall & others], 118
 conduction block, frequency-dependent [Courtney & others], 111
 lidocaine, blood preservation, erythrocyte and leukocyte responses to lidocaine in citrate-phosphate-dextrose solution (correspondence) [Abouleish & others], 295
 lidocaine, dopamine release from rat striatal slices altered by [Westfall & others], 118
 lidocaine, epinephrine effects on duration of action [Fink & others], 263
 lidocaine, monoethylglycinexylidide and, uterine muscle responses to [Munson & Embro], 183
 lidocaine, placental transfer, fetal acidosis effects on [Biehl & others], 409
 nerve impulse pattern role in potency [Courtney & others], 111
 obstetrical, fetal and neonatal effects of (review article) [Ralston & Shnider], 34
 procaine, dopamine release from rat striatal slices altered by [Westfall & others], 118
- volatile
 chloroform, malignant hyperthermia, *in-vitro* model, caffeine-induced contracture response to [Reed & Strobel], 254

- chloroform, toxicity, hepatic, isolated rat hepatocytes [Stacey & others], 17
- diethyl ether, charcoal, activated, adsorption of (correspondence) [Cundy], 77
- diethyl ether, charcoal, activated, adsorption of (correspondence) [Sircar & Kim], 78
- diethyl ether, endoplasmic reticulum, smooth, proliferation after [Ross & Cardell], 325
- diethyl ether, malignant hyperthermia, *in-vitro* model, caffeine-induced contracture response to [Reed & Strobel], 254
- diethyl ether, microsomal drug-metabolizing enzyme induction after [Ross & Cardell], 325
- diethyl ether, survey of flammable anesthetic use (correspondence) [Duncalf], 298
- enflurane, acetylcholine concentrations and turnover in rat brain structures during [Ngai & others], 4
- enflurane, malignant hyperthermia, *in-vitro* model, caffeine-induced contracture response to [Reed & Strobel], 254
- enflurane, nitrous oxide cardiovascular effects during [Smith & others], 345
- enflurane, potency, anesthetic indices relating to respiratory arrest and cardiac failure [Wolfson & others], 187
- enflurane, renin-angiotensin system regulatory function during [Miller & others], 399
- enflurane, renin-dependent state in rat, blood pressure support during [Miller & others], 404
- enflurane, toxicity, hepatic, isolated rat hepatocytes [Stacey & others], 17
- fluroxene, malignant hyperthermia, *in-vitro* model, caffeine-induced contracture response to [Reed & Strobel], 254
- fluroxene, renin-angiotensin system regulatory function during [Miller & others], 399
- fluroxene, survey of flammable anesthetic use (correspondence) [Duncalf], 298
- halothane, acetylcholine concentrations and turnover in rat brain structures during [Ngai & others], 4
- halothane, arrhythmia, epinephrine-induced, during, responses to fasting and lipid infusion [Miletich & others], 245
- halothane, dopamine release from rat striatal slices altered by [Westfall & others], 118
- halothane, endoplasmic reticulum, smooth, proliferation after [Ross & Cardell], 325
- halothane, fasting effects (editorial views) [Merin], 236
- halothane, fertility, reproduction, and postnatal survival in mice after chronic exposure [Wharton & others], 167
- halothane, fetal neuropharmacology (editorial views) [Holtzman], 235
- halothane, fetotoxicity in rats after chronic exposure [Pope & others], 11
- halothane, glucose uptake, cerebral, local, primates [Shapiro & others], 97
- halothane, hypotensive anesthesia for total hip arthroplasty, blood loss and organ function after [Thompson & others], 91
- halothane, hypovolemia and, interaction with hemodynamics of increased intra-abdominal pressure [Diamant & others], 23
- halothane, intra-abdominal pressure hemodynamic interaction with hypovolemia and [Diamant & others], 23
- halothane, left ventricular function during and in conscious man [Sonntag & others], 320
- halothane, malignant hyperthermia, *in-vitro* model, caffeine-induced contracture response to [Reed & Strobel], 254
- halothane, metabolism, oxidative, in fetal rat brain during maternal anesthesia [Vannucci & Wolf], 238
- halothane, metabolites artifactual? (correspondence) [Greene], 295
- halothane, metabolites artifactual? (correspondence) [Mukai & others], 296
- halothane, microsomal drug-metabolizing enzyme induction after [Ross & Cardell], 325
- halothane, nitroprusside metabolism in dogs during [Behnia & others], 260
- halothane, nitrous oxide cerebral effects in dog [Sakabe & others], 195
- halothane, norepinephrine during, microvascular responses to in rat [Yamaki & others], 332
- halothane, potency, anesthetic indices relating to respiratory arrest and cardiac failure [Wolfson & others], 187
- halothane, renin-angiotensin-aldosterone axis and (editorial views) [Pettinger], 393
- halothane, renin-angiotensin system regulatory function during [Miller & others], 399
- halothane, renin-dependent state in rat, blood pressure support during [Miller & others], 404
- halothane, toxicity, hepatic, isolated rat hepatocytes [Stacey & others], 17
- halothane, toxicity study (editorial views) [Van Dyke], 165
- halothane, toxicity study, reproduction in mice after chronic exposure [Wharton & others], 167
- halothane, vasopressin during, microvascular responses to in rat [Yamaki & others], 332
- isoflurane, malignant hyperthermia, *in-vitro* model, caffeine-induced contracture response to [Reed & Strobel], 254
- isoflurane, potency, anesthetic indices relating to respiratory arrest and cardiac failure [Wolfson & others], 187
- methoxyflurane, fetotoxicity in rats after chronic exposure [Pope & others], 11
- methoxyflurane, malignant hyperthermia, *in-vitro* model, caffeine-induced contracture response to [Reed & Strobel], 254
- methoxyflurane, potency, anesthetic indices relating to respiratory arrest and cardiac failure [Wolfson & others], 187
- methoxyflurane, toxicity, hepatic, isolated rat hepatocytes [Stacey & others], 17
- toxicity of halogenated in isolated rat hepatocytes [Stacey & others], 17
- trace concentrations, fetotoxicity in rats following chronic exposure [Pope & others], 11
- trace concentrations, halothane, toxicity study (editorial views) [Van Dyke], 165
- trace concentrations, halothane, toxicity study, reproduction in mice after chronic exposure [Wharton & others], 167
